Useful Information

- Yes, we are recording this webinar.

- Please ask questions anytime during the presentation in the Questions panel.

- Use #oXygenXML for webinar-related tweets.

Overview

- Customizing the user interface
- Sharing the UI layout with your team
- Using color themes
- Retina/HiDPI Support
- Combining styles for visual editing

Use Case for the UI Customization

- Sorin: the leader of the documentation team

- Mihaela: a member of the documentation team
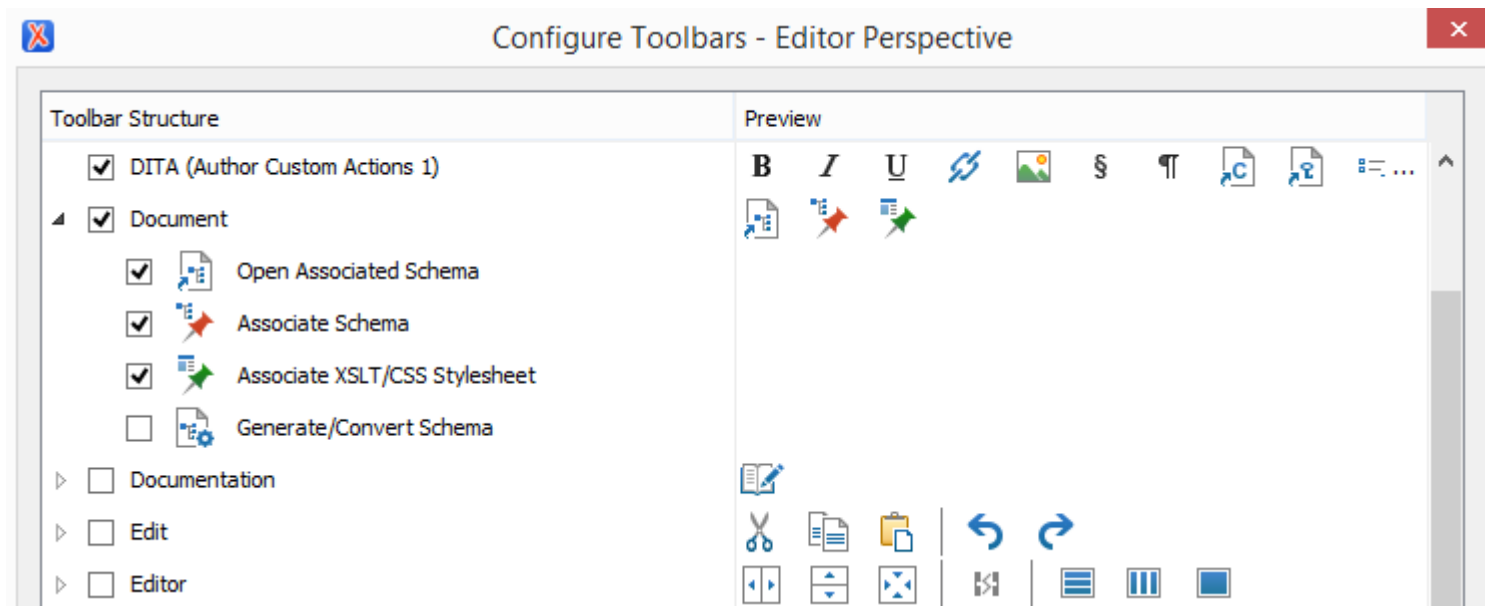

- Project: oXygen's user guide

  https://github.com/oxygenxml/userguide/tree/userguide-webinar

- Purpose: sharing a simplified layout for an optimal team-work

Customizing the User Interface

- Customize the toolbars

- Customize the views

- Customize the editors

Customizing the User Interface

- Toolbars
  - Move
  - Show/Hide
  - Configure and organize actions (new in 17)

Toolbars Improvements

	File	Search	Spelling	Document
version 16.1				
version 17				

Customizing the User Interface

- **Views**
  - Move
  - Auto-hide
  - Show/Close
  - Float
  - Dock
  - Maximize/Restore
- **Editors**
  - Split
  - Tile/Stack
  - Synchronous Scrolling

Sharing the UI Layout with your Team

- Export / Load the UI layout
- Store the UI layout in the project

Layout File

| Editor perspective	Debugger perspectives	Database perspective
• views • toolbars	• views • toolbars	• views • toolbars
