Agenda

- Remember, remember!
- Improvement proposal

What we had

- Integrated the XSpec framework

- Added an XSpec wizard

- Added built-in transformation scenarios to run XSpec scenarios

What you asked for

- Tighter integration

What I propose

- A helper view customizable through:
  - XSLT
  - HTML
  - Javascript
    - Interacts with Oxygen through a Javascript→Java bridge

XSpec needs you!

Where is XSpec now

- A new version was just released: **0.5.0**
- http://github.com/xspec/xspec

Thank you!
